

**Providing Technical Innovation and Expertise**  
for the European Aerospace and Defence Industry

[ippbv.com](http://ippbv.com)

## Commercial Aerospace

Over the years our products have been used in all types of aircraft, from wide-body jets to small business jets; from search-and-rescue helicopters to cargo planes.

Our products and subsystems have been selected for use in various systems such as avionics, flight controls, communication systems, search-and-rescue equipment, law enforcement systems, galleys and in-flight systems.

We know your environment and we can meet your specifications. We understand the importance of weight reduction and lifetime reliability. Give us a challenge and we will work closely with you to come up with the right solution that addresses your needs.

### Some examples of aircraft where our products are doing service:

A319 / A320 / A330 / A350 / A380 / B737 /  
B747 / B787 / ATR72 / F50 / F70 / F100 / PC12  
/ PC24 / P180 / EV55 / G120 / AW 109 / AW  
119 / AW139 / AW 189 / EC135 / EC145 / etc.

### Customers

Airbus / Boeing / Diamond Aircraft / Pilatus  
Aircraft / Sukhoi / GROB Aircraft / Fokker  
Aircraft / Agusta Westland / Piaggio Aircraft /  
Honeywell Aerospace / Thales / Meggitt  
Avionics / GKN Aerospace / Cobham /  
GE Aviation Systems / Sirio Panel / Heli-One /  
Zodiac Aerospace / Diehl Aerospace

### Products

Rotary switches & encoders

Push button switches  
& indicators

Flat panel displays

Solid state video recorders

Connectors & harnesses

Illuminated light plates  
& sub-assemblies

Keypads & keyboards

Thermal switches

GPS aided inertial  
navigation systems

## Military Aerospace

Demands are rigorous and operating conditions are harsh and unforgiving. We can provide solutions for you that will give you all you need under such conditions. We have more than 42 years of experience serving this market.

Our products have been selected for use in various systems such as avionics, flight controls, communication systems, mission equipment, radar systems, surveillance systems and gimbals.

### Some examples of aircraft where our products are doing service:

A400M / A310MRTT / A330MRTT / PC21 / Eurofighter / Gripen / Mirage / F-16 / F-18 / F-22 / C-212 / C-235 / C-295 / AWACS / L159B / T-50 / KC-10 / AW101 / Super Lynx / Tiger / Cougar / Panther / Apache / Sea King / NH-90 / T129 / etc.

### Customers

Agusta Westland / Airbus Helicopter / Airbus Military / Boeing / Sikorsky / Bell / Aselsan / Honeywell Aerospace / Alenia Aermacchi / Pilatus Aircraft / Sukhoi / OMASud / Irkut / GROB Aircraft / Lockheed Martin / Saab / Aero Vodochody / Piaggio Aircraft / Dassault / Korean Aerospace / Honeywell Aerospace / Thales / Meggitt Avionics / GKN Aerospace / Cobham / GE Aviation Systems / Sirio Panel / Rockwell Collins / BAE Systems

### Products

Rotary switches & encoders

Push button switches & indicators

Laser range finders

Flat panel displays

Solid state video recorders

Connectors & harnesses

Illuminated light plates & sub-assemblies

Keypads & keyboards

Thermal switches

GPS aided inertial navigation systems

## Land Systems / UAV / Missiles

To support and protect soldiers in the field, combat vehicles, remote controlled equipment and soldier hardware are key to a successful mission.

We know this market and understand what the requirements are. We can integrate seamlessly with your systems and offer solutions that bring real value to the battlefield.

Our products and subsystems are found on: mission equipment, armament systems, field radios, night vision goggles, hand-held radios, targeting systems, thermal imagers, remote controlled vehicles, border surveillance, missiles, etc.

### Some examples of where our products and subsystems are performing on a daily basis:

GTK Boxer / Puma / Leopard I & II / Supacat / Piranha / ESSM / AIM-9X / IRIS-T / Taurus / Pizarro / MV-10 / MVF-5 / etc.

### Customers

General Dynamics / BAE Systems / Iveco / GDELS Mowag / Patria / Raytheon / EADS / MBDA / Aselsan / Thales / Rheinmetall / Airbus Defence & Space / Theon / Dicom / Intracom / Selex / Terma / Indra / Navantia / FLIR

### Products

Rotary switches & encoders

Push button switches & indicators

Laser range finders

Flat panel displays

Solid state video recorders

Connectors & harnesses

Illuminated light plates & sub-assemblies

Waterproof limit switches

Keypads & keyboards

DC/DC & AC/DC converters

Thermal switches

GPS aided inertial navigation systems

## Naval

Submarines, patrol boats, aircraft carriers, corvettes or frigates – our products are supporting these vessels around the world. We are part of the systems they use day in, day out on critical missions.

As remotely-operated underwater vehicles enter the waters, we will again be supplying critical parts and subsystems to keep them functioning under harsh conditions.

Typical applications where you will find us: radars, fire control systems, bridge equipment, communications systems, periscopes, missiles, launch systems, target identification systems.

### You'll find our products in use with the following navies:

Norway, Netherlands, Germany, France, UK, Spain, Italy, USA, Brazil, Morocco, Sweden, Thailand, Indonesia, Australia, Denmark, etc.

### Type of vessels

Frigates / Corvettes / Aircraft carriers / Submarines / Patrol Boats / Unmanned

### Products

Rotary switches & encoders

Push button switches & indicators

Laser range finders

Flat panel displays

Solid state video recorders

Connectors & harnesses

Illuminated light plates & sub-assemblies

Waterproof limit switches

Linear position sensors

Keypads & keyboards

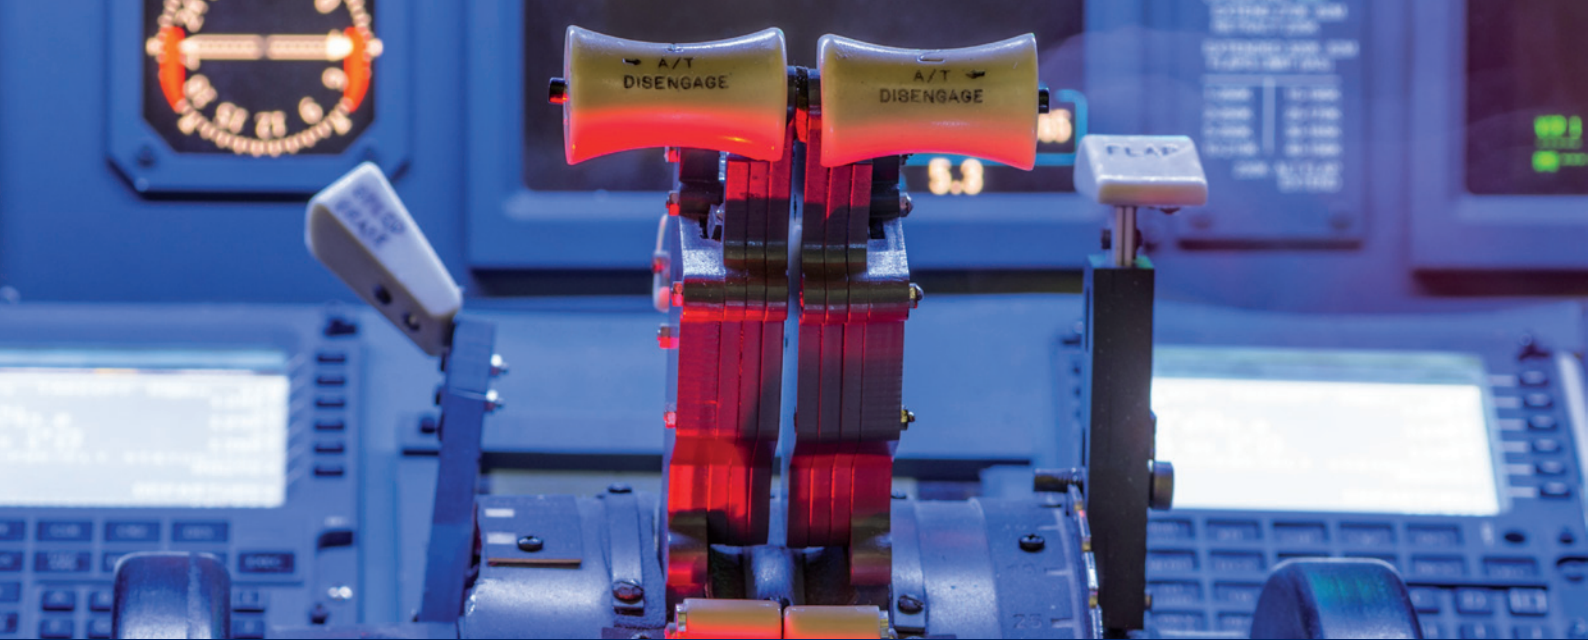

DC/DC & AC/DC convertors

Thermal switches

GPS aided inertial navigation systems

## Simulators

The demand for pilots is ever increasing and the need for simulators is growing. We have broad experience supporting this market with the right human – machine interface products.

We can help you save money without giving up the reliability, performance, look and tactile feel of original avionics parts.

We have been supplying B737 and A320 simulator parts with great success – more and more pilots are gaining valuable training in these simulators. We are actively working on developing programs for other simulators – both commercial and military. Additional value is added when we support you through our kitting and inventory management programs – allowing you to save time, money and headaches.

### Products

Rotary switches & encoders

Push button switches & indicators

Connectors & harnesses

Illuminated light plates & sub-assemblies

Keypads & keyboards

DC/DC & AC/DC converters

## High demanding industry

There are many environments that are harsh, extreme, demanding and dirty. You will find our products performing as expected under all these conditions.

Think about oil & gas, de-mining, underwater, rugged vehicle, transport, construction equipment, turbines, accumulators, hydraulics, etc. We can deliver the solution you need.

We have a proven track record with our products operating in all types of demanding environments, performing day after day, year after year. If you are looking for a high-grade solution at a fair price, then we can help you. Our product solutions are fully certified for your exacting environments and will perform as required, when required.

### Products

Rotary switches & encoders

Push button switches & indicators

Flat panel displays

Connectors & harnesses

Illuminated light plates & sub-assemblies

Waterproof limit switches

Linear position sensors

Keypads & keyboards

DC/DC & AC/DC converters

Thermal switches

GPS aided inertial navigation systems

## Experience

International Precision Products B.V. is one of the leading providers of specialised electromechanical and electro-optic components and subsystems for the aerospace and defence industry, supplying European customers for over 42 years.

We provide Technical, Engineering, Sales and Logistic support for our products via strategically located offices throughout Europe. With our headquarters and distribution center close to Amsterdam Schiphol airport and offices in Munich, Hamburg, Milan and the UK, IPP is able to provide local service throughout the European Aerospace and Defence industry.

Our team of dedicated specialists is ready to help you find the solutions that will get the job done for you. We are in your time zone, we speak your language and we can be at your facility at very short notice.
