

Transilluminated Control knobs

Paramount Panels appointment by EHC as their exclusive distributor in Europe enables us to offer one of the world's largest ranges of Panel control knobs. EHC's (Electronic Hardware Corporation) 30 years plus pedigree in the design and manufacture of control knobs, coupled with our own experience in the panel market provides our customers with an extensive selection of military control knobs, thus bringing solutions to all applications, at very competitive prices.

Manufactured in accordance with all relevant military standards, the product portfolio includes not just transilluminated knobs but also a comprehensive range of non-illuminated versions manufactured in a variety of materials.

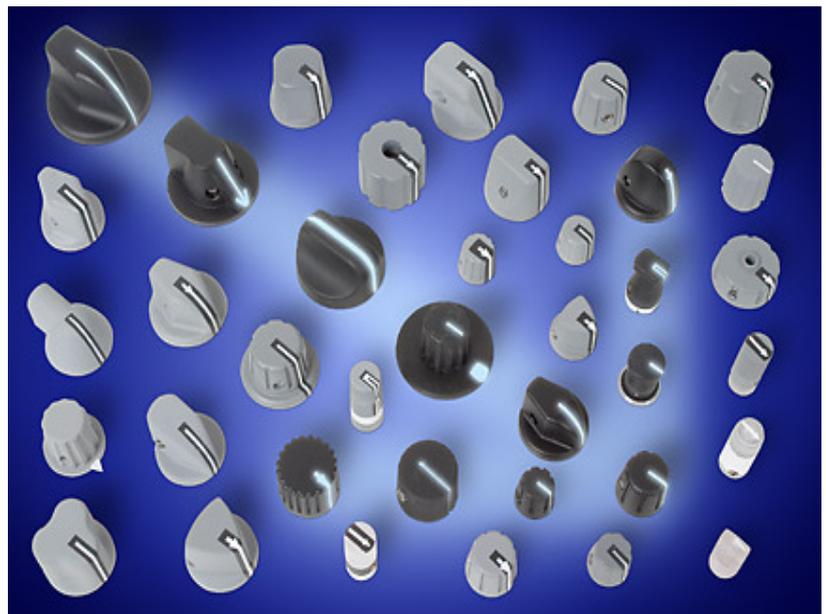

Night Vision Compatible Versions are available across the complete range.

New Variants: Unique manufacturing moulding methods provides low cost tooling.

Indicia Variants: Configurations include traditional white, specials, and frosted clear.

Knob Colour: FED-STD 595 all colour numbers, and to customers own requirements.

Indicia Illumination: In accordance with military specifications or customers own requirements.

Paramount Panels and EHC are able to cross reference most part numbers from other suppliers, and we are able to offer new designs and variants if required.

See line card, and/or contact us for a catalogue or further information.
