THE OPTION-RICH KL1800
SERIES KEY LOCK COMBINES
THE VERSATILITY OF A MULTI-
FUNCTION SWITCH WITH THE
HIGH SECURITY OF THE MEDECO
CYLINDER.

## The Innovative Switch Company

The KLI 800 is available with two types of lock adapters: the KL, the standard high security lock adapter and the MKL, which meets or exceeds the stringent requirements of MIL-DTL-3786.

The KLI 800 is designed for critical and high security applications and demanding usage in aircraft, weapons, medical and industrial control and instrumentation, as well as ground support electronic equipment.

The Medeco lock is designed to resist drilling, wrenching, picking, and other forms of physical attack. In addition, this quality constructed switch is designed with double " $D$ " mounting, versatile master-keying capability, restricted factory-registered key system, and, on request, exclusive key assignment.

Key Lock Half-Inch Enclosed Rotary Switches

## REMOVAL POSITIONS

$36^{\circ}$ INDEXING

$45^{\circ}$ INDEXING

$60^{\circ}$ INDEXING

$90^{\circ}$ INDEXING

> REAR VIEW SWITCH SHOWN IN POSITION "A"

SUGGESTED MOUNTING HOLE
Option of Location where Key is Removable
Position "A" Thru "J" - $36^{\circ}$ Indexing.
Position "A" Thru "H" - $45^{\circ}$ Indexing.
Position "A" Thru "F" - $60^{\circ}$ Indexing.
Position "A" Thru "D" - $90^{\circ}$ Indexing.
The switches are in position \#1 when the key in position " $A$ ". NOTE
Shown switch $36^{\circ}$ indexing - 1 Pole - 10 positions.

## ORDERING INFORMATION AND NOTES:

How to determine part number
KL1836-106S with keypulls at A, B, D and F
Sample part number for a 1800 Series Switch $36^{\circ}$, indexing, 1 pole, 6 positions per pole, shorting switch with key removals at $\mathrm{A}, \mathrm{B}, \mathrm{D}$ and F positions.

1. The chart below lists the standard available combinations for $36^{\circ}, 45^{\circ}, 60^{\circ}$ and $90^{\circ}$ switches.

| ANGLE OF THROW $\left.{ }^{* *}\right)$ | POSITIONS PER POLE |  |
| :---: | :---: | :---: |
|  | ONE POLE | TWO POLES |
| $36^{\circ}$ | $2-10$ | $2-5$ |
| $45^{\circ}$ | $2-8$ | $2-4$ |
| $60^{\circ}$ | $2-6$ | $2-3$ |
| $90^{\circ}$ | $2-4$ | 2 |

** Shorting and non-shorting contacts are available in $36^{\circ}$ angles of throw; non-shorting contacts only are available in $45^{\circ}, 60^{\circ}$ and $90^{\circ}$ angles of throw.
2. When ordering specify KL or MKL as a preface to the COLE basic switch number. A special Cole P/N will be assigned.
3. All keylock switches are keyed alike unless otherwise specified.
4. Keylock switches are supplied with full circle of terminals regardless of the number of active positions.
5. $10,8,6,4$ positions switches, $36^{\circ}, 45^{\circ}, 60^{\circ}$ and $90^{\circ}$, angle of throw, respectively, are continuous rotations unless otherwise specified.
